Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Isle La Motte, Vermont, as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Town of Isle La Motte, Vermont's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Town of Isle La Motte, Vermont as of December 31, 2022 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Isle La Motte, Vermont and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Isle La Motte, Vermont's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Isle La Motte, Vermont's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise doubt about the Town of Isle La Motte, Vermont's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information on pages 5 through 12 and 46 through 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Isle La Motte, Vermont's basic financial statements. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the

United States of America. In our opinion, the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 17, 2023, on our consideration of the Town of Isle La Motte, Vermont's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Town of Isle La Motte, Vermont's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Isle La Motte, Vermont's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2022**

(UNAUDITED)

The following management's discussion and analysis of Town of Isle La Motte, Vermont's financial performance provides an overview of the Town's financial activities for the fiscal year ended December 31, 2022. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Isle La Motte's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, pension schedules and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regard to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position - this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities - this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above-mentioned financial statements have one column for the Town's activity. The type of activity presented for the Town of Isle La Motte is:

- *Governmental activities* - The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). All of the Town's basic services are reported in governmental activities, which include general government, appropriations, highway, services, education and unclassified.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Isle La Motte, like other local governments, uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Isle La Motte are classified as governmental funds.

Governmental funds: All of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Isle La Motte presents four columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The Town's major governmental funds are the general fund, highway fund and permanent fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund and the highway fund are the only funds for which the Town legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund and Budgetary Comparison Schedule - Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - Highway Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds to the Statement of Activities.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - Highway Fund, a Schedule of Proportionate Share of the Net Pension Liability, a Schedule of Contributions - Pension and Notes to Required Supplementary Information.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund and highway fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position and changes in net position of the Town's governmental activities. The Town's total net position for governmental activities increased by \$130,548 from \$1,037,907 to \$1,168,455.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - decreased by \$61,572 for governmental activities to a balance of \$539,376 at the end of this year.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year and the net resources available for spending.

The changes to total fund balances for the general fund, permanent fund and nonmajor funds occurred due to the regular activity of operations.

Budgetary Highlights

There was no difference between the original and final budget for the general fund.

The general fund actual revenues were under budget by \$50,337. This was due to all revenue categories being receipted in excess of budgeted amounts with the exception of property taxes and charges for services.

The general fund actual expenditures were under budget by \$1,752. This was due to all expenditure categories coming in at or under budget amounts with the exception of appropriations.

There was no difference between the original and final budget for the highway fund.

The highway fund actual revenues exceeded budget by \$147,496. This was due to all revenue categories being receipted within or in excess of budgeted amounts.

The highway fund actual expenditures were in excess of budget by \$148,218. This was due to summer roads and winter roads being expended over budget.

Capital Asset and Debt Administration

Capital Assets

As of December 31, 2022, the net book value of capital assets recorded by the Town increased by \$121,172 from the prior year. This increase was the result of current year additions of \$160,937 less disposals of \$36,000 and depreciation expense of \$3,765.

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Isle La Motte was incorporated under the laws of the State of Vermont. The Town operates under the selectboard-treasurer form of government and provides the following services: general government, appropriations, highway, services, education and unclassified.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended December 31, 2022, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 98 "*The Annual Comprehensive Financial Report*". This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

In the government-wide Statement of Net Position, the governmental activities column is (a) presented on a consolidated basis by column and (b) is reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts - net investment in capital assets; restricted net position and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Both the government-wide and fund financial statements categorize primary activities as governmental. The Town categorizes all activities of the entity as governmental.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions (general government, public safety, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements and Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. Both fiduciary funds and component units that are fiduciary in nature have been excluded from these financial statements. The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Major Funds

- a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The Highway Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment. The primary sources of revenue are highway aid and transfers from other funds.
- c. The Permanent Fund is used to account for assets held by the Town that are legally restricted and unless otherwise specified, only earnings and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

Nonmajor Fund

- d. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The emphasis in fund financial statements is on the major funds in the governmental activity category. Nonmajor funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1. Accrual

Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. Early in the second half of the year the Town prepares a budget for the fiscal year beginning January 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the inhabitants of the Town.

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposit and other evidence of deposits at banks, savings and loan associations and credit unions
- Repurchase agreements
- Money market mutual funds

The Town of Isle La Motte has no formal investment policy but instead follows the State of Vermont Statutes.

Receivables

Receivables include amounts due from governmental agencies. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. Allowance for uncollectible accounts is estimated to be \$0 as of December 31, 2022. Accounts and loan receivables netted with allowances for uncollectible accounts were \$258,887 for the year ended December 31, 2022.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of Governmental Funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated capital assets are reported at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

Long-term Obligations

The accounting treatment of long-term obligations depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in government-wide statements. The long-term obligations consist of notes from direct borrowings payable and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Vermont Municipal Employees' Retirement System (VMERS) Plans and additions to/deductions from the VMERS Plan's fiduciary net position have been determined on the same basis as they are reported by the VMERS Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components - nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted - This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.

Committed - This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Town through Town meetings are the highest level of decision-making authority of the Town. Commitments may be established, modified or rescinded only through a Town meeting vote.

Assigned - This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is given annually by vote of the taxpayers and is expressed by the Selectboard.

Unassigned - This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the Town meeting vote has provided otherwise in its commitment or assignment actions.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town currently has one type of this item, deferred outflows related to pensions. This item is reported in the statement of net position.

In addition to liabilities, the statement of financial position and/or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred tax revenues, which arise only under a modified accrual basis of accounting, qualifies for reporting in this category. Accordingly, this item is reported in the governmental funds balance sheet. Prepaid taxes also qualify for reporting in this category. This item is reported in both the statements of net position and governmental funds balance sheet. Deferred inflows related to pensions qualify for reporting in this category as well. This item is reported

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

only in the statement of net position. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied on or about July 1, 2022 on the assessed value listed as of April 1, 2022, for all real and personal property located in the Town. Taxes were due on August 13, 2022 and November 20, 2022. Payments received after the due dates were charged interest of 1% per month for the first three months. If no payments are made on the first installment by November 20th, the interest on this portion of the tax rises to 1.5%. Payments received after November 20, 2022 were considered delinquent and subject to a penalty of 8% plus interest accrued at 1% per month for the first three months after which the interest on any remaining balance rises to 1.5%.

Property tax revenues are recognized when they become available. Available includes those property tax receivables collected by June 1. The remaining receivables due for the current fiscal year have been recorded as deferred revenues.

Tax liens are placed on real property within twenty-four months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property two months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services or privileges provided; operating capital grants and contributions, including special assessments).

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent items as of the date of the financial statements

TOWN OF ISLE LA MOTTE, VERMONT

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

The Town's investment policies, which follow state statutes, authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all Town funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The Town does not have a policy covering custodial credit risk. However, the Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF. Town funds that may exceed insurance limits are fully collateralized with securities held by the financial institution in the Town's name.

At December 31, 2022, the Town's cash balances of \$1,303,060 were comprised of bank balances of \$1,348,795. Bank deposits are adjusted primarily by outstanding checks and deposits in transit to reconcile to the Town's cash balance. Of these deposits, \$353,617 were insured by federal depository insurance and consequently were not exposed to custodial credit risk. The remaining bank balances of \$995,178 were collateralized with securities held by the financial institution in the Town's name.

<u>Account Type</u>	<u>Bank Balance</u>
Checking accounts	\$ 35,970
Repurchase agreement	1,209,208
Money market accounts	<u>103,617</u>
	<u>\$ 1,348,795</u>

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the Town does not have a policy for custodial credit risk for investments.

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

At December 31, 2022, the Town had no investments.

Credit risk - Statutes for the State of Vermont authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, certificates of deposits and other evidence of deposits at banks, savings and loan associations and credit unions, repurchase agreements and money market mutual funds. The Town does not have an investment policy on credit risk. Generally, the Town invests excess funds in savings accounts and various insured certificates of deposit.

NOTE 3 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at December 31, 2022 consisted of the following individual fund receivables and payables:

	Receivables (Due From)	Payables (Due To)
General fund	\$ 107,968	\$ 163,722
Highway fund	-	105,665
Nonmajor special revenue funds	163,722	2,303
	<u>\$ 271,690</u>	<u>\$ 271,690</u>

The result of amounts owed between funds are considered to be in the course of normal operations by the Town. Reconciliation of the amounts owed between funds may or may not be expected to be repaid within one year in their entirety due to the recurring nature of these transactions during operations.

NOTE 15 - DEFINED BENEFIT PENSION PLAN

VERMONT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM

Plan Description

The Vermont Municipal Employees' Retirement System (VMERS) is a cost sharing, multi-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. The plan was established effective July 1, 1975 and is governed by Title 24, V.S.A. Chapter 125. It is designed for persons employed on a regular basis by a school district or by a Town for no fewer than 1,040 hours in a year and for no fewer than 30 hours a week for the school year, as defined in 16 V.S.A. § 1071 or for no fewer than 1,040 hours in a year and for no fewer than 24 hours a week year-round; provided, however, that if a person who was employed on a regular basis by a school district as either a special education or transportation employee and who was transferred to and is working in a Town in the same capacity pursuant to 16 V.S.A. § 261a(a)(6) or (8)(E) and if that person is also employed on a regular basis by a school district within the Town, then the person is an "employee" if these criteria are met by the combined hours worked for the Town and school district. The term shall also mean persons employed on a regular basis by a municipality other than a school district for no fewer than 1,040 hours in a year and for no fewer than 24 hours per week, including persons employed in a library at least one-half of whose operating expenses are met by municipal funding. For the year ended June 30, 2020 (the most recent data available), the retirement system consisted of 15,548 participating members.

The general administration and responsibility for formulating administrative policy and procedures of the Retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system and two employer representatives - one elected by the governing bodies of participating employers of the system and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont Town Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final

compensation (AFC) and years of creditable service. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Annual Comprehensive Financial Report. The Annual Report may be viewed on the State's Department of Finance and Management website at: [Annual Comprehensive Financial Report | Department of Finance and Management \(vermont.gov\)](https://www.vermont.gov/annual-comprehensive-financial-report).

Benefits Provided

The pension plan is divided into four membership groups:

- Group A - general employees whose legislative bodies have not elected to become a member of Group B or Group C
- Groups B and C - general employees whose legislative bodies have elected to become members of Group B or Group C
- Group D - sworn police officers, firefighters and emergency medical personnel

The Town participates in Group A. Benefits available to each group are based on average final compensation (AFC) and years of creditable service and are summarized below:

VMERS	Group A	Group B	Group C	Group D
Normal service retirement eligibility	Age 65 with 5 years of service or age 55 with 35 years of service	Age 62 with 5 years of service or age 55 with 30 years of service	Age 55 with 5 years of service	Age 55 with 5 years of service
Average Final Compensation (AFC)	Highest 5 consecutive years	Highest 3 consecutive years	Highest 3 consecutive years	Highest 2 consecutive years

** - A special early retirement factor of 3% per year only for municipal police officers who have attained age 60

Members of all groups may qualify for vested deferred allowance, disability allowances and death benefit allowance subject to meeting various eligibility requirements. Benefits are based on AFC and service.

Contributions

Title 24 VSA Chapter 125 of Vermont Statutes grants the authority to the Retirement Board to annually review the amount of municipalities' contributions as recommended by the actuary of the retirement system in order to achieve and preserve the financial integrity of the fund and to certify the rates of contributions payable by employers. The Board of Trustees also certifies the rates of contribution payable by employees. Contribution rates for each group as of July 1, 2021 are as follows:

VMERS	Group A	Group B	Group C	Group D
Employee Contributions	3.250% of gross salary	5.625% of gross salary	10.750% of gross salary	12.100% of gross salary
Employer Contributions	4.750% of gross salary	6.250% of gross salary	8.000% of gross salary	10.600% of gross salary

Employee contributions are withheld pre-income tax by the Town and are remitted to the State of Vermont. Such withholdings for the year ended December 31, 2022 totaled \$1,096. The Town contributed \$1,587 for the year ended June 30, 2022. The Town's total payroll for the year ended December 31, 2022 for all employees covered under this plan was \$32,766.

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities

At June 30, 2022, the Town reported a liability of \$13,185 for its proportionate share of the net pension liabilities for each plan. The net pension liabilities were measured as of June 30, 2021 and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of June 30, 2020. The Town's proportion of the net pension liabilities were based on a projection of the Town's long-term share of contributions to each pension plan relative to the projected contributions of all participating towns, actuarially determined.

At June 30, 2021, the Town's proportion was 0.00896% for VMERS, which was an increase of 0.00080% from its proportion measured as of June 30, 2020 for VMERS.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the Town recognized pension expense of \$1,601 for the VMERS plan. At June 30, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	VMERS	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 2,457	\$ -
Changes of assumptions	2,084	-
Net difference between projected and actual earnings on pension plan investments	-	7,774

Contributions subsequent to the measurement date	<u>1,587</u>	<u>-</u>
Total	<u>\$ 7,356</u>	<u>\$ 8,180</u>

\$1,587 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Significant Actuarial Assumptions and Methods

The total pension liability for the June 30, 2021 measurement date was determined by rolling forward the total pension liability as of June 30, 2020 to June 30, 2021. The total pension liability was calculated using the following actuarial assumptions:

Investment Rate of Return: 7.00%, net of pension plan investment expense, including inflation.

Inflation: 2.30%

Salary Increases: Varying, service-based rates from 0-10 years of service, then a single rate of 4.50% (includes assumed inflation rate of 2.30%) for all subsequent years.

Deaths After Retirement: Mortality rates for pre-retirement, healthy retirees and disabled retirees in the VMERS plan for Groups A, B, C and D were based on historical and current demographic data, adjusted to reflect health characteristics of the underlying groups and estimated future experience and professional judgment. The mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

Pre-Retirement:

- Groups A/B/C - 40% PubG-2010 General Employee Amount-Weighted below-median and 60% of PubG-2010 General Employee Amount-Weighted, with generational projection using Scale MP-2019.
- Group D - PubG-2010 General Employee Amount-Weighted above-median, with generational projection using scale MP-2019.

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Healthy Post-Retirement - Retirees:

- Groups A/B/C - 104% of 40% PubG-2010 General Healthy Retiree Amount-Weighted below-median and 60% of PubG-2010 General Healthy Retiree Amount-Weighted, with generational projection using scale MP-2019.
- Group D - PubG-2010 General Healthy Retiree Amount-Weighted, with generational projection using scale MP-2019.

Disabled Post-Retirement:

- All Groups - PubNS-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with generational projection using Scale MP-2019.

Inactive Members: Valuation liability equals 100% of accumulated contributions. Inactive who are vested immediately become Deferred Members and the liabilities for all Deferred Members are based on the accrued benefit.

Future Administrative Expenses: An expense adjustment based on actual expenses for the previous year is reflected in the development of recommended employer contribution levels.

Unknown Data for Participants: The same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Percent Married: 85% of male members and 50% of female members are assumed to be married.

Spouse's Age: Husbands are assumed to be three years older than their wives.

Cost-of-Living Adjustments: Assumed to occur on January 1 following one year of retirement at the rate of 1.10% per annum for Group A members and 1.20% per annum for Groups B, C and D members (beginning at Normal Retirement eligibility age for members who elect reduced early retirement, at age 62 for members of Group A, B and D who receive a disability retirement benefit and at age 55 for members of Group C who receive a disability retirement benefit). The January 1, 2021 COLA is 0.40% for all groups. The January 1, 2022 COLA is 2.00% for Group A members and 2.30% for Group B, C and D members.

NOTE 15 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Cost Method: The Entry Age Actuarial Cost Method is used. Entry age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Accrued Actuarial Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

A smoothing *asset valuation method* was used for funding purposes in the VMERS plan, under which the value of assets for actuarial purposes equals market value less a five-year phase-in of the differences between actual and assumed investment return. Then value of assets for actuarial purposes may not differ from the market value of assets by more than 20%.

The *long-term expected rate of return* on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) developed for each major asset class. These best estimate ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Passive Global Equities	24.00%	5.05%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% for the VMERS plan. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy which exceeds the actuarially determined contribution rate. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current System members. The assumed discount rate has been determined in accordance with the method prescribed by GASB 68.

Sensitivity of the Town’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town’s proportionate share of the net pension liability calculated using the discount rate of 7.00% for the VMERS plan, as well as what the Town’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
<u>VMERS:</u>			
Discount rate	6.00%	7.00%	8.00%
Town's proportionate share of the net pension liability	\$ 26,060	\$ 13,185	\$ 2,597

Pension Plan Fiduciary Net Position

The schedule of employer allocations and schedule of pension amounts by employer are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. The schedules present amounts that are elements of the financial statements of VMERS or their participating employers. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont’s Annual Comprehensive Financial Report. The Annual Report can be viewed on the State’s Department of Finance and Management website at: [Annual Comprehensive Financial Report | Department of Finance and Management \(vermont.gov\)](https://www.vermont.gov/annual-comprehensive-financial-report).

NOTE 16 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the Town carries commercial insurance or participates in a public entity and self-insured risk pool sponsored by the Vermont League of Cities and Towns.

Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of December 31, 2022. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

In addition, the Town is a member of the Vermont League of Cities and Towns (VLCT). The VLCT has set up three insurance trusts; the Property and Casualty Intermunicipal Fund, Inc. (PACIF) for multi-line insurance; the Vermont League of Cities and Towns Health Trust (VLCTHT) for health, life and disability coverage and the Vermont League of Cities and Towns Unemployment Trust, Inc. (VLCTUT) for unemployment compensation. PACIF, VLCTHT and VLCTUT are nonprofit corporations formed to provide insurance and risk management programs for Vermont cities and towns and is owned by the participating members. The Trusts are not licensed insurance carriers and members are not protected by the Vermont Insurance Guaranty Association.

To provide insurance coverage, PACIF has established a self-funded insurance trust. It provides extensive coverage for losses to member municipalities for property damage, auto accidents, injured employees, public official liability and employment practices liability, members gain additional benefits from PACIF's unique public safety and risk management programs as well as dedicated in-house claims adjusters. In the event that total contributions assessed to and made by all members result in an actual or projected financial deficit and PACIF is unable to meet its required obligations, the Program will be terminated with each member assessed their proportionate share of the deficit.

To provide unemployment coverage, VLCTUT has established a separate trust of funds from member contributions to pay administrative costs, unemployment claims and provide excess reinsurance protection. Contributions are based on payroll expense and the previous two-year unemployment compensation experience. In the event that total contributions assessed to and made by all members result in an actual or projected financial deficit and VLCTUT is unable to meet its required obligations, the Program will be terminated with each member assessed their proportionate share of the deficit.

NOTE 17 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 18 - COMPARATIVE DATA/RECLASSIFICATIONS

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the Town's financial position and operations. Also, certain amounts presented in the prior year's data have been reclassified to be consistent with the current year's presentation.

NOTE 19 - RESTATEMENT

In 2022, the Town determined that certain transactions in prior years required a restatement to the governmental activities net position and fund balance.

The general fund was decreased by \$73,376 for deferred revenues. The resulting restatement decreased the fund balance from \$689,035 to \$615,659.

The governmental activities net position at January 1, 2021 changed by the same amount from \$1,111,283 to \$1,037,907.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Selectboard
Town of Isle La Motte
Isle La Motte, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Isle La Motte, Vermont as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Town of Isle La Motte, Vermont's basic financial statements and have issued our report thereon dated July 17, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Isle La Motte, Vermont's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Isle La Motte, Vermont's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Isle La Motte, Vermont's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

www.rhrsmith.com

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Isle La Motte, Vermont's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We noted certain other matters that we reported to management of the Town of Isle La Motte, Vermont in a separate letter dated February 13, 2023.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
